

MAF Tacticians and Intelligence Warriors.

Subject: AATTC's 37th Tactics and Intelligence Symposium, 30 Day Message

Purpose: You are invited to AATTC's 37th Tactics and Intelligence Symposium, 10-13 June 2019, in Saint Joseph, Missouri. This event promotes finding relevant solutions to emerging tactical challenges while building enduring relationships with fellow air mobility professionals, sister services and international partners. This year's theme is "Full Spectrum Contested Warfare". Discussion and workshops will center around: 1. Prioritizing preparedness for war, 2. Modernizing key capabilities, 3. Delivering performance at the speed of relevance, and 4. Deepening interoperability. Additionally, we will focus on ensuring MAF platforms are viable and equipped for tomorrow's fight. Attendees will have the opportunity to learn from numerous subject matter experts and vendors. The Symposium is open to tacticians and intelligence professionals from DOD, USMIL and select International Partner nations.

Participants: In addition to receiving SME briefings from multiple backgrounds, attendees will also participate in open forum discussions intended to focus on the sharing of ideas and facilitate the improvement of each individual Major Weapons System (MWS). All participants and attendees are encouraged to bring a minimally prepared 5-10 minute presentation on an issue/solution they think could benefit the entire MAF Tactics and Intelligence community. Please email the Symposium Chair and Vice Chair with a very brief description of the subject being presented. A list of presenters and briefers will be continually updated and shared in future messages.

Agenda: Tuesday, 11 June, there will be consolidated SME briefings. Wednesday, 12 June, four working groups will convene in the areas of Tactical Aerial Delivery, Strategic Aerial Delivery, HVAA/ Strategic Aerial Refueling, and Mobility Intelligence Operations. Thursday, 13 June, there will be an out brief for the Decision Makers in attendance. More information is available at the following link:

<http://www.aattc-alumni.org/>

Location: Rosecrans Air National Guard Base and Stoney Creek Inn & Conference Center, Saint Joseph, Missouri.

Transportation: If flying, book flights into and out of Kansas City International and drive to St Joseph via rental car - approximately 35 minute drive time.

Dates: 10-13 June 2019 (Travel dates are 09 and 14 June 2019 (afternoon & evening). The Symposium begins at 0800 on 11 June and officially ends at 1200 on 13 June after the out brief). All times are CST.

Registration: Please use the following link:

<https://e.afit.edu/1JxbB>

Hotel: Each attendee is responsible for making their own reservation. A limited number of rooms at the government rate under the event title of "AATTC Symposium" are blocked at the following locations in Saint Joseph, MO

- Stoney Creek Inn, 816-901-9600, 1201 N Woodbine Road, Saint Joseph, MO 64506

(Rooms blocked until 10 June 18, then under SPACE AVAILABLE BASIS ONLY)

- Drury Inn, 1-800-325-0720, 4213 Frederick Blvd, Saint Joseph, MO 64506 (Rooms blocked until 10 June 18 then under SPACE AVAILABLE BASIS ONLY)

- Candlewood Suites, 816-232-2600, 3505 North Village Drive, Saint Joseph, MO 64506 (Rooms blocked until 10 June 18, then under SPACE AVAILABLE BASIS ONLY)

Security Requirements: All classified briefings will be held on Rosecrans Air National Guard Base (ANGB) on 11-13 June 2019. Please have your Security Manager forward your JPAS information using SMO Code: "ANG AATTC" as soon as possible, but NLT 15 June 18. Security POCs at AATTC are:

MSgt Nicole Conaway, DSN: 356, Comm: 816-236-3525, nicole.e.conaway.mil@mail.mil

MSgt Nicole Curnutt, DSN: 356, Comm: 816-236-3760, nicole.r.curnutt.mil@mail.mil

About the event:

Some of the subjects that will be covered are:

- Rapid Global Mobility
- Full Spectrum Readiness Update
- AMC/A2 Update
- OPSEC & Sig Mgmt in the MAF
- MSIC Update
- Joint Full Spectrum Readiness
- AIECS/METE/VECTS/Datalink
- AATC Update
- Command EWO Update
- HVAA Update
- Cyber Fundamentals for Aviation

Additional topics that may be discussed in the working groups are, but not limited to:

- Adaptive Basing (To Support Flexible, Mass of Troops with reduced op signature)
- CDO Environment (Near-Peer Actor)
- CDO Environment (Current Operational Environment)
- Adversaries Coming to Meet Us (Non-State, Non-Peer, Near-Peer)
- Cyber (How do we increase OPSEC, CND)
- Cyber (How do We Operate during CNA)
- Modern Mobile Long Range SAMs
- Advanced SAM Configurations
- Countering Weapon System Proliferation and Tactics Proliferation
- Improving Exercises

- Intelligence Training Challenges/Solutions
- Operational Training Challenges/Solutions
- Current and Future Force Protection Environments
- How to Use Integration to Support C-SAFIRE
- Countering Small Unmanned Aerial Systems (Rotary and Fixed Wing)
- Use of Advanced Technologies (3D Printing, Drones, Robotics) to Support MAF
- Countering Advanced/Evolving Capabilities

This Symposium is for you, the Tactics or Intelligence Operator and Warfighter. It is intended to be an opportunity for you to meet with your colleagues and discuss the concerns and challenges that we share in the hopes of fostering ideas that can be pursued to the point of eventual resolution.
